Schedule

Lightning Talk
Administration
Application & Database Development
Artificial Intelligence & Machine Learning
Cloud Technology
Power BI

Schedule is subject to change.

Thursday, Jan 14, 2021 Conference Schedule

Room	Precon
09:00 AM - 04:00 PM	

Friday, Jan 15, 2021 Conference Schedule

Room	Administration	Application & Database Development	Cloud, AI & ML 1	Cloud, AI & ML 2	Power BI & Power Platform 1	Power BI & Power Platform 2
:00 AM - 10:00 AM	Analyze and solve	Introduction to	BI in Azure two	Not My Problem(?)	From XL to S -	Lightning Talk
:00 AM - 10:00 AM	common wait stats	Azure DevOps	years live	- Azure Networking	Reduce your Power	Session
	scenarios	Azure Devops	years live	101 for Azure SQL	BI model size by	Session
	scenarios	Mark Broadbent	Alexander Klein	Server DBAs	90%!	Markus
	Uwe Ricken			Server DDA3	30%.	Ehrenmueller-
		Level: Beginner	Level: Beginner	Alexander	Nikola Ilic	Jensen
	Level: Intermediate			Arvidsson		
					Level: Advanced	Level: Beginner
				Level: Beginner		
eak (15min)						
5 AM - 11:15 AM	To be Announced	Living on the Edge:	Business Analysis	Creating an modern	Designing impactful	Let's go Premium!
IOIIS AM - IIIIS AM	To be Alliounced	SQL Server Edge	with T-SQL	data platform in the	visualisations for	The essentials to
		Sur Server Euge	With 1-5GE	cloud	vour data	kickstart your
		Frank Geisler	Dejan Sarka	Cloud	your data	experience.
				Johan Ludvig	Benni De Jagere	experience.
		Level: Beginner	Level: Advanced	Brattâs		Dave Ruijter
					Level: Beginner	
				Level: Beginner		Level: Beginner
ak (15min)						
11:30 AM - 12:30 PM	Big Data Clusters	From adaptive to	Azure Synapse	Azure databricks:	Power BI and	External Tools for
	for the Absolute	intelligent: query	Analytics - Early	brick by brick for	Paginated Reports?	Power BI, how to
	Beginner	processing in SQL	Lessons learned	the data engineer	[Deutsch/German]	create them!
	Mohammad Darab	2019	Tillmann Eitelberg,	Cédric Charlier	Philipp Lenz	Marc Lelijveld
	Monammad Darab	Hugo Kornelis	Gabi Münster	Cedric Chariter	Philipp Lenz	Marc Lelijveid
	Level: Beginner	Hugo Kornelis	Gabi Munster	Level: Beginner	Level: Intermediate	Level: Advanced
		Level: Intermediate	Level: Intermediate			
ınch break (60min)						
	Crushing a Cloud	Intro to Query Store	Change your skills -	Strukturierung des	Self-service BI -	ABCs of the Power
	Crushing a Cloud Migration: Moving		Change your skills - from an onpremise	Strukturierung des Data Lake	Self-service Bi - Why Data	ABCs of the Power BI REST API
		Intro to Query Store Tracy Boggiano		Data Lake		BI REST API
	Migration: Moving Mountains While	Tracy Boggiano	from an onpremise DBA to a cloud DBA	Oliver Engels,	Why Data Modelling Is Still	
	Migration: Moving Mountains While Migrating Data		from an onpremise	Data Lake	Why Data Modelling Is Still Important	BI REST API Jens Vestergaard
	Migration: Moving Mountains While	Tracy Boggiano	from an onpremise DBA to a cloud DBA Björn Peters	Data Lake Oliver Engels, Tillmann Eitelberg	Why Data Modelling Is Still	BI REST API
	Migration: Moving Mountains While Migrating Data Matt Gordon	Tracy Boggiano	from an onpremise DBA to a cloud DBA	Oliver Engels,	Why Data Modelling is Still Important Koen Verbeeck	BI REST API Jens Vestergaard
	Migration: Moving Mountains While Migrating Data	Tracy Boggiano	from an onpremise DBA to a cloud DBA Björn Peters	Data Lake Oliver Engels, Tillmann Eitelberg	Why Data Modelling Is Still Important	BI REST API Jens Vestergaard
30 PM - 02:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon	Tracy Boggiano	from an onpremise DBA to a cloud DBA Björn Peters	Data Lake Oliver Engels, Tillmann Eitelberg	Why Data Modelling is Still Important Koen Verbeeck	BI REST API Jens Vestergaard
30 PM - 02:30 PM - 02:30 PM - 02:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner	Tracy Boggiano Level: Beginner	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate	Why Data Modelling Is Still Important Koen Verbeeck Level: Beginner	BI REST API Jens Vestergaard Level: Beginner
30 PM - 02:30 PM Bak (15min)	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner	Tracy Bogglano Level: Beginner Finding Islands,	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB	Why Data Modelling is Still Important Koen Verbeeck	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with
30 PM - 02:30 PM Bak (15min)	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids:	BI REST API Jens Vestergaard Level: Beginner
30 PM - 02:30 PM - 02:30 PM - 02:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner	Tracy Bogglano Level: Beginner Finding Islands,	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An Introduction to	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB	Why Data Modelling Is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with
30 PM - 02:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthl Gogurl	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres
80 PM - 02:30 PM - 02:30 PM - 02:30 PM - 03:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An Introduction to Azure Arc enabled Data Services.	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query
80 PM - 02:30 PM - 02:30 PM - 02:30 PM - 03:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthl Gogurl	Tracy Bogglano Level: Beginner Finding Islands, Gaps, and Clusters In Complex Data	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An introduction to Azure Ar enabled	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed Instance, a different sql server?	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres
30 PM - 02:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthl Gogurl	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An introduction to Azure Arc enabled Data Services. Ben Weissman	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres
30 PM - 02:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthl Gogurl	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An Introduction to Azure Arc enabled Data Services.	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres
30 PM - 02:30 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthl Gogurl	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An introduction to Azure Arc enabled Data Services. Ben Weissman	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio	Why Data Modelling Is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine Ferenc Csonka	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres
eak (15min) ::45 PM - 03:45 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthl Gogurl	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An introduction to Azure Arc enabled Data Services. Ben Weissman	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio	Why Data Modelling Is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine Ferenc Csonka	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres
30 PM - 02:30 PM eak (15min) :45 PM - 03:45 PM eak (15min)	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthl Gogurl	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An introduction to Azure Arc enabled Data Services. Ben Weissman	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio	Why Data Modelling Is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine Ferenc Csonka	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres
30 PM - 02:30 PM bak (15min) c45 PM - 03:45 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthi Goguri Level: Intermediate	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack Level: Advanced	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An introduction to Azure Arc enabled Data Services. Ben Weissman Level: Intermediate	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio Level: Intermediate	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine Ferenc Csonka Level: Intermediate	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Guery Dennes Torres Level: Intermediate
eak (15min) eak (15min) eak (15min) eak (15min)	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthi Goguri Level: Intermediate	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack Level: Advanced	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An Introduction to Azure Are enabled Data Services. Ben Weissman Level: Intermediate	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio Level: Intermediate	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine Ferenc Csonka Level: Intermediate Financial Modelling with Power BI	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres Level: Intermediate
ak (15min) 45 PM - 03:45 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthi Goguri Level: Intermediate The ins and outs of securing SQL Server traffic	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack Level: Advanced	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An introduction to Azure Arc enabled Data Services. Ben Weissman Level: Intermediate	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio Level: Intermediate DIY ETL with Logic apps, Azure Functions and more	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine Ferenc Csonka Level: Intermediate Financial Modelling	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres Level: Intermediate DAX - Musings about foundational concepts
ak (15min) 45 PM - 03:45 PM	Migration: Moving Mountains While Migrating Data Matt Gordon Level: Beginner Start thinking like the SQL Engine Deepthi Goguri Level: Intermediate The ins and outs of securing SQL Server	Tracy Boggiano Level: Beginner Finding Islands, Gaps, and Clusters in Complex Data Edward Pollack Level: Advanced Notebooks 101 for SQL People Julie Koesmarno	from an onpremise DBA to a cloud DBA Björn Peters Level: Beginner Azure SQL anywhere. An Introduction to Azure Arc enabled Data Services. Ben Weissman Level: Intermediate Developing a Solution with SQL Server Machine Learning Services	Data Lake Oliver Engels, Tillmann Eitelberg Level: Intermediate Azure Sql DB Managed instance, a different sql server? Gonzalo Bissio Level: Intermediate	Why Data Modelling is Still Important Koen Verbeeck Level: Beginner Power BI Dataflows on Steroids: Handling 100+ million records using Enhanced Compute Engine Ferenc Csonka Level: Intermediate Financial Modelling with Power Bi Bob Duffy	BI REST API Jens Vestergaard Level: Beginner Advanced ETL with Power Query Dennes Torres Level: Intermediate DAX - Musings about foundational
